Cybertech NYC 2023

November 8, 2023

Manhattan, New York

November 9, 2023 | More events around the city

The Cybertech Advantage

Cybertech NYC is the international event for the cyber industry, featuring a grand exhibition hall, a record-breaking Startup Pavilion, cutting-edge conference, and sector-focused special events.

Cybertech NYC is in the business of connecting people and creating a strong cyber community. Our thought-provoking conferences and exhibitions set the world stage for influential speakers and panelists who are the brains behind the most innovative and advanced cyber technologies. The conference in New York City will take place in Manhattan.

New York City is uniquely positioned to lead the future of cyber innovation due to strong customer demand, a workforce of over four million people, a growing startup ecosystem, and prominent academic institutions. Home to 45 Fortune 500 HQs and the financial capital of the United States (and perhaps the globe), New York is the perfect place to grow existing business connections and create new opportunities with a wide range of sectors and entities, including government, industry, and academia.

As cyber leaders and trailblazers gather, visitors and participants can utilize the Cybertech B2B Platform to preschedule important business meetings onsite.

Cyber. We live it. We breathe it. And we are setting the stage for global cyber innovations and solutions.

Leading the discussion on cyber technology

AI TECH NYC

AI for Cyber | Cyber for AI

First-of-its-kind AI&Cyber event

The global AI revolution is already drastically changing the world we live in today. **Cybertech NYC is the leading place** to discuss not only the benefits of this extraordinary technology, but to also shed light on the vulnerabilities related to its high exposure to cyber threats.

AI TECH will allow cyber experts to discuss the AI revolution in the cyber field in two different levels. The first is AI in cyber - the use of AI for Cybersecurity, while the second is Cybersecurity for AI. Leading companies, R&D centers, CISOs and investors will explore new areas in the AI and Cybersecurity field in this first-of-its-kind event that includes discussions on the main stage, special sessions and forums, networking opportunities, and more.

Cybertech Special Events

Cybertech NYC will consist of a wide variety of related special seminars and events in addition to the professional summit and exhibition. The leading sessions, to be held around the City, include sector-specific topics, such as finance, security, entrepreneurship, transportation, and more.

Among the Events

◆ Exclusive Meeting Between Selected Startups and Leading Investors

By invitation only

This unique closed event provides growth startups, pre-selected by leading investors, an official exclusive platform within Cybertech NYC to meet investors from all over the world. It will include an experts' forecast, investors & entrepreneurs speed dating, and invaluable networking time.

◆ Cyber &...

Professional sessions, including industrial, governmental and academic experts, will allow participants to delve into, and learn more about, different cyber fields.

Media **Retail** **Fintech** **Healthcare** **AND MORE**

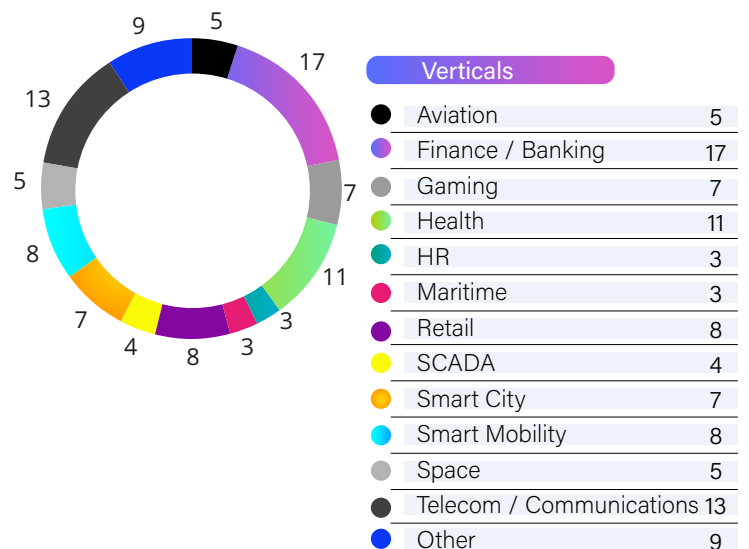

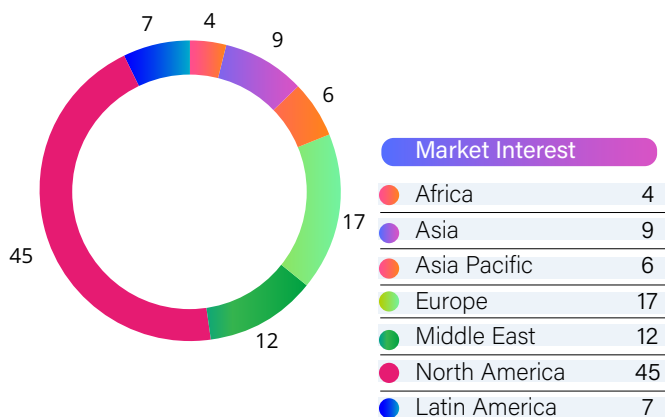

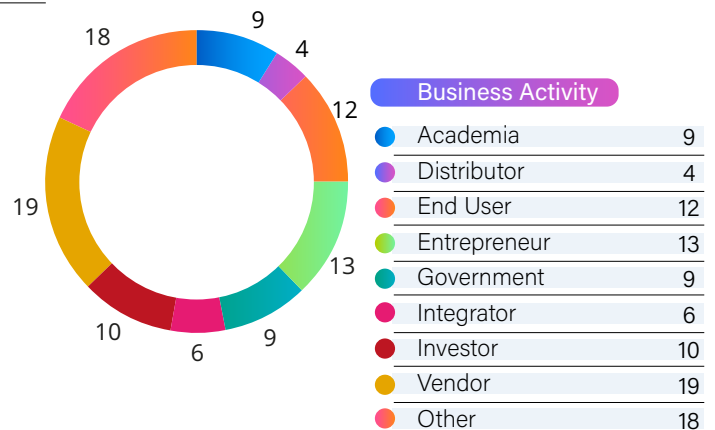

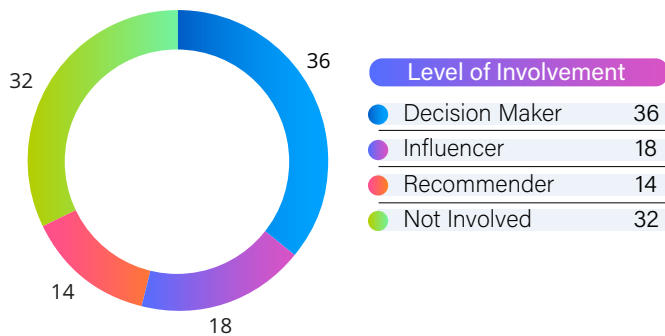

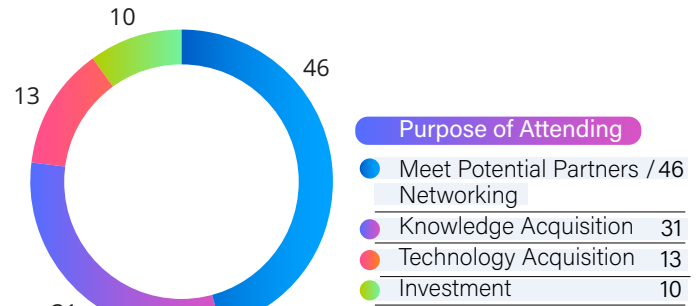

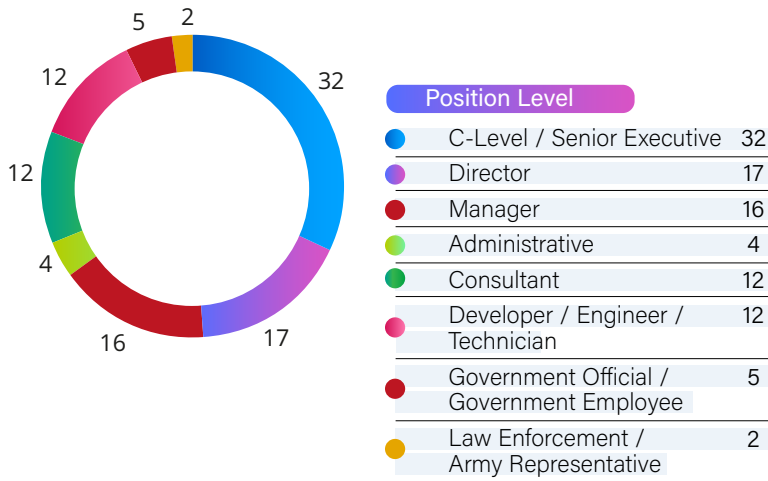

◆ Women. Tech. Cyber.

The exclusive platform for women in the tech world. Leading women from the tech industry and the government will share their experience, ideas, and thoughts; mentor other women in the technological field; and connect with female colleagues worldwide.
